

ATTENTION ALL APPLICANTS:

Please understand as you apply for this job, that we are looking for dedicated drivers. We need drivers that understand that the work moves around, and that means the drivers must go with it. There will be times that you may need to take loads out of other terminal locations. There will be times that you may even have to help on jobs in another state. With that in mind, we need dedicated drivers that are flexible and willing to go to work. We have the work, we just need the drivers to make it happen.

Thank you very much.

Upper Management
