

Thank you very much for your interest in Tuttle and Tuttle Trucking, Inc. We have a new application system which allows you to complete the application online (and it's mobile friendly too!) – please follow this link to apply:

<https://intelliapp.driverapponline.com/c/tutleandtuttle>

Please select what location and what driving position you are looking for (company, O/O, etc.). In the folder is a job description for your review if you have never hauled frac sand before. I have also included information on both our company driver benefits, and Owner Operator requirements and benefits for your review.

If you need assistance in what location you are looking for, you can either select “NOT SURE” in the drop down box (which will flag our Recruiter to contact you), or call Mike Mahanay directly at 817-999-5315.

We look forward to bringing you to our team!
